Pet Widget Pte Ltd is a pet-centric application development company pursuing the creation of an integrated, feature-packed, socially driven free mobile application that we envision will serve as a platform for the pet community to socialise, communicate and share information about their experiences with their pets and of pet-related businesses. Our accompanying product, the Pet Widget Badge is a intelligent pet ID solution that makes use of NFC and QR code technology to provide a smart ID tag that features on-demand identification, location pinning and one-tap contact capabilities. Information managed whenever, wherever through the Pet Widget App.

For over three decades, Seachem has been a company rooted in sound science. We remain as one of the few surviving independent pet care companies. We don't simply repackage old ideas, we offer truly innovative solutions that work better than competing products and save money through increased efficiency and concentration - in freshwater, seawater, reefs, and ponds as well as herpetological and avian husbandry.
