It's not every day that you get to do the things you love for work. At Digipets, you guessed it, we love digital and we love pets, so creating a digital marketing agency that combined the two was a no-brainer! Founded and backed by the integrated marketing agency Now Comms Group, we created Digipets to fill the gap in quality digital support offered to the Australian pet industry. Leveraging our 10 years expertise and know-how of this industry, we exist to deliver tech-enabled, strategic digital solutions for pet brands, retailers and distributors to solve real-life business problems. After working with players big and small for the past 10 years, we know what we're talking about. So come have a chat with us to create something great. We'd love to work with you.

Steritech's Gamma Services provides gamma irradiation treatment to eliminate quarantine risks in pet products. Alternative treatment methods are not as effective as gamma irradiation in eliminating risks such as E-Coli and Salmonella. The gamma process can assist in opening pathways to countries where import conditions require a specific set of treatments. Globally, the process is well recognised. Product is treated quickly, as opposed to longer periods for other treatments, meaning your product can get to its final destination much quicker. Learn more—www.steritech.com.au
