

INTELLIGENT PET ID TAG

The Pet Widget Badge Lite is the simple, intelligent, no-brainer upgrade to your pet's ID tag that will help reunite you, and your pet, if it's ever lost. It links with your pet's profile created in the Pet Widget app, so it can be identified and returned quickly if they get lost. Ready for the pool, the beach, and beyond, its durable design can withstand the toughest conditions, no problem. It's no larger than 2cm in diameter, and weighs only 2 grams, making it suitable for smaller pets too.

FEATURES AND BENEFITS

- Suitable for dogs, cats and small animals
- Provides the location of where your pet was last scanned, with directions to the area with an internet-based GPS application.
- Accessible with any smartphone or web browser, the finder of your pet does not require any app to access your lost pet's profile.
- The Pet Widget app is a community of pet lovers, and the most comprehensive pet-centric tool in a free to download app.
- NFC compatible with android phones.
- No subscription fees.
- Lightweight & waterproof.
- No batteries or charging requires, ever!
