

ALL ABOUT PACKAGING

WHAT WE DO:

- Analyze & understand where and how your product will be consumed.
- Provide advice and technical specifications to suit your product.
- Assess your chosen packaging to ensure it meets your needs.
- Suggest special features as needed - e.g. tear-notches, zippers, spouts
- Assist with further requirements - eg. complementary packaging such as Counter Shippers & Display Units.

We are proud to have over 30+ years experience in the packaging industry, which has proven invaluable for delivering high quality packaging solutions to our customers.

We are a privately owned & family run company, with a global reach and strong international partnerships. We provide our customers with a valuable depth of resources, experience, innovation & technology - which allows us to produce & deliver the very best packaging solutions.

We take a consultative approach and make a point of understanding your brand. As a result, we deliver exactly what you're looking for. We are dedicated to revolutionising the packaging industry with passion and a thorough understanding of the industry.

We cater to all aspects of your printing requirements, including Gravure, Digital, Flexographic, Offset, Litho & Screen Printing.

So, whatever it is that you are looking for - large runs, short runs, new product launches, or a packaging revamp - we have the solution!
